WTCI-562-P

MEMORANDUM

TO: Lillian Liburdi, Director, Management and Budget Department
FROM: Guy F. Tozzoli
DATE: December 11, 1986
SUBJECT: ASBESTOS ABATEMENT
REF.: 1) Memorandum - P. Bolognese - L. Caffin, dated 2/13/86 - Same Subject
2) Office Memorandum # 8-86, dated 10/20/86
COPY TO: P. Bolognese, D. Montalbano, R. Mannion, R. Linn

In late 1985 we met to discuss various project positions which were authorized with the 1986 Budget. Included in those positions discussed that day were three positions authorized for the Asbestos Abatement Project which you indicated that OMB had identified a permanent workload. You also recommended that organizational studies be conducted to determine if asbestos abatement would be centralized/de-centralized and that the three positions in question would be authorized on a project basis pending the outcome of that study (see referenced memorandum, copy attached).

In the referenced Office Memorandum # 8-86 (copy attached) Mr. Berger announced the establishment of the Office of Project Director, Asbestos Control Program. It is clear from Mr. Berger's memorandum that asbestos control is de-centralized and accordingly, the Organization Planning Division of the Personnel Department has terminated its further study of the issue.

Therefore, based on the above provided information, your approval is requested to convert the three positions in question from project to permanent.

Guy F. Tozzoli, Director
World Trade Department
